Benefits

- **CREATE** interactive classes with ease: Using the Nearpod Content Tool, simply upload a pdf or start a new presentation and add interactive features.
- **ENGAGE** students: Multimedia content harnesses students' attention, keeping them focused and minimizing off-task behavior.
- Quickly **ASSESS** student progress: Obtain detailed real-time and post-session reports showing individual and class results.
- **DISTANCE LEARNING:** With Nearpod, there's no need to be at the same place to join a presentation and learn.
- **ACCESS** detailed reports: Filter them by presentation, student, teacher, date, location or description.

- Join a session: Your students can join your Live session through iPads, iPods, Android mobile devices, Chromebooks, Surfaces, NOOKS, PCs and Macs by just entering its PIN.

How does Nearpod work?

A designated school administrator will manage the school's Nearpod account and they will be able to:

- Manage school users and obtain detailed information on them.
- Share presentations among teachers.
- Get detailed reports on each presentation launched and on students' performance.
- Access usage statistics.
- Customize the look and feel of the school's account.
